

Pricing

The prices for items are listed. All reasonable offers will be considered. I may consider lowering the price depending on the item and the volume of your order. I will continue to update the list over time. New items will be listed at the bottom with a date of entry.

Shipping

- I cannot ship sheets of glass.
- **Frit & Powers** - Due to the weight of glass and cost of shipping UPS flat rate boxes are the most cost effective for shipping throughout the country. Sixteen 1lb jars will fit into one large flat rate box. Add \$16 for shipping of any order size up to 16 jars.
- **Misc items** – All other items listed will be shipped flat rate also. \$6 small, \$12 large, \$16 large. If items will not fit in flat rate boxes, then shipping will need to be calculated for your order.

Studio Location

If you want to stop by here is the contact information and directions.

952 388 3762

4640 139th St. W. Savage 55378

Once you found your way to county road 42 (Eagan Drive) running east and west through Burnsville/Savage/Prior Lake you can use these directions.

If heading East on county road 42 away from Prior Lake, do a U-turn at the Sonic restaurant (the Joppa-Glendale intersection with a light), and head west on 42. Take the first right turn lane (Natchez) after U-turning at the Joppa-Glendale intersection. Then take the 2nd right (139th St). Our house is the 2nd house on the left, and the studio is the detached brown bldg. to the right with a white door.

If heading west on county road 42 from Burnsville take the first right turn lane (Natchez) after passing the Joppa-Glendale intersection (has a traffic light). Then take the 2nd right (139th St). Our house is the 2nd house on the left, and the studio is the detached brown bldg. to the right with a white door.

Scrap Glass

I will ship scrap glass which is great for small projects and jewelry. Sizes vary from 1 inch square to 3 inch square. Pricing is the same per pound.

Sheet Glass

I will be selling sheet glass by the pound (local sales only). The sizes and pricing in the table below are provided to give a reference point when buying glass by the pound. Prices are from Delphi on line for regular clear glass. The majority of my supply is not in full sheets. All sheets are either Bullseye or Uroboros 90 COE. There is a mixture of Tekta, single rolled, and double rolled all for the same price. Basically, I am selling for less than 50% or retail.

Thickness	Size	Weight	Delphi Price	My Price
Thin	16x20	2 lbs	\$31.65	\$13
Standard	16x24	4.2 lbs	\$35.95	\$15

- All colored glass Standard \$4.50 / lbs Thin \$8.50 / lbs
- Clear Standard \$3.50 / lbs Thin \$6.50 / lbs
- Clear Iridescent Standard \$4.50 / lbs Thin \$8.50 / lbs
- Irid Plus Texture Standard \$5.00 / lbs Thin \$9 / lbs

Frit & Powders –

\$8 per lb for powder

\$7 per lb for frit (any size)

- I anticipate having over 200 1 lb and 40 5 lb jars of frit.
- There is a limited supply of #3. My supply is split between 50% powders and 25% #1 and 25% #2.
- Of the opaque colors 85% are powders.
- The 5 lb sizes are all transparent and mostly greens and blues in #1 and #2 sizes with a few powders. I have a couple 5lb jars of clear #2 & 3
- **For mail orders send me a list of what you are looking for and I'll see if I have it. For shipping the minimum order is 5 jars.**

Confetti - \$10

4oz jars. I have about 8 different colors. I also have a 1lb jar of light and regular aventurine green confetti for \$30 each.
